

Daniel Hyo Kim

- '16/09– **Microsoft**
Today Designer
Redmond, WA
- Interpreting the Fluent design language for PowerPoint born out of Windows, incorporating intelligent services in Office products, Win32 interface translations to macOS, inking experiences for Outlook mobile tablets and PowerPoint consistency, and reprioritizing how type is set on a slide.
- '15/05– **Google**
'15/08 Visual Design Intern
Mountain View, CA
- Designed Play entities, elements in reference to a persona, to be scalable across the Store and Google Play consumption apps, unifying interaction and visual patterns, and to identify the significance of a persona in Play. Designed and illustrated for Games: Play Now, comic book connections vision project for a Play Books sprint, and t-shirts for a college recruiting event.
- '15/01– **Exprii**
'15/05 Freelance Designer
Pittsburgh, PA
- Designed lesson and activity experiences at the local start-up. Exprii uses the web to create a global community of students and teachers by designing an active, user-dependent platform.
- '14/05– **Apple**
'14/08 Graphic Design
Intern
Cupertino, CA
- Produced weekly iTunes music store content and designed artist pages, events, and album pages at a global scale. Observed the landscape of global typography and presented ways to design for localized audiences that might perceive form differently. Made a motion graphics piece to supplement final presentation.
